

Global Network Access

International Access Rates

We know that you need to communicate with your partners, colleagues and customers around the world. We make every effort to understand the difficulties of coordinating global resources to offer you a better meeting solution.

Stay Connected Worldwide

Conference Calling with Global Network Access will bring your traveling battles to a halt, but not your communications or productivity. Global Network Access makes conferencing simple for you and the people dialing into your call.

Ease-of-use: You receive a single list of permanent international numbers in all regions, including toll and toll-free numbers.

Uniformity: All users, no matter which region they are in, have the exact same service, call flow and conference call features available to them.

Consistency: If you have an existing conferencing account, you can continue to use the same conference code and leader PIN. You also still have access to your recordings, SpeakSpace TCC Online, audio integration with our web services and all other services.

Act globally while thinking locally: Provide your organization a consistent global platform while still allowing user level account management in all regions with live operator support in the users' time zones and language.

All rates are per minute per participant, and include the U.S. bridging fees. All rates are in U.S. currency.

International Dialing Instructions:

- 1. International numbers can change unexpectedly. You can verify your numbers by entering your conference code in the “Get Dial-In Numbers” box at <https://speakspace.tcconline.com/IOL.action>.**
- Select the country you will be located in when joining an international conference call from the list below.
- If you’re using a land line, select from the **toll-free** section on dial-in number list below. If you’re using a mobile phone, select from the **local toll** dial-in section on number list below.
- Please note: mobile phones often work when using the toll free numbers, however it depends on the end user’s mobile phone plan and carrier. Therefore, it is good to test the dial in numbers in advance of your call.
- Dial the number sequence as shown below and follow the voice prompts. When prompted, enter the conference code followed by #.
- If your country isn’t listed, or you have trouble connecting, you can call the **U.S. international toll number (+1.213.443.4974) to connect to your conference call from any location worldwide.**
- During your conference call, operator assistance is available by pressing *0 (group) or 00 (private), to help with call-related issues. **The operator can also dial out to any global participant and bring him back into the call (extra fee applies).**
- Customer Support:** Customer support is available anytime 24/7 by calling U.S. toll free +1-866-238-4325 or +1-706-902-5121 (international).
